Chepe Demo and Trash Haul

Los Angeles, CA, 2022-PRESENT

Software Developer

- While maintaining the role as a laborer, designed and developed a website and mobile application for tracking customer records and service routes.
- Provide training and support to staff on using the system, resulting in improved operational efficiency and data accuracy.
- Currently, maintain and update the web applications as needed.

Chepe Demo and Trash Haul

Los Angeles, CA, 2022-PRESENT

Laborer

- Perform daily trash and debris collection, ensuring timely and efficient services for residential and commercial clients.
- Communicate effectively with customers to resolve service issues and provide excellent customer support.
- Assist in route planning, answering service request emails, and customer data entry.

Web Developer (Ads Quality Admin)

Adecco at Google, Los Angeles, CA, 2021 - 2022

- Collaborated with software engineers to enhance advertising and targeting quality through data analysis, driving improvements.
- Generated detailed reports for issue identification, ensuring data accuracy and reliability.
- Suggested and implemented an automated language locale validation system using Google Apps Script, not only enhancing efficiency and data accuracy but also accelerating productivity by leveraging other validation processes.

Front-End Developer Intern

Code The Dream, Durham, NC, 2019 - 2021

- Designed wireframes and landing pages to enhance the user interface.
- Developed an internal web application for streamlined personnel and project management, utilizing React.js in tandem with Airtable.
- Optimized operations within the personnel and project management realms by leveraging Airtable robust features, enhancing data organization and accessibility.
- Gained an organization as a client for our mobile app, which they now use for their daily operational needs.

Recruiter

United States Marine Corps

Nov 2014 - Oct 2016 (2 years)

- Mentored new and potential employees on relocation, company climate, orientation and completed new hire documentation to allow for a seamless and comfortable transition.

- Represented the U.S. Marine Corps in the local community during enhanced area canvassing and special events in support of the recruiting mission; maintained working relationships with educators and local officials in the community in support of the recruiting objective

Supply Manager**United States Marine Corps****May 2011 - Nov 2014 (3 years 7 months)**

- Maintained an almost perfect score on annual armory inspection and maintained unit readiness.
- Ensured that weapons inspections were scheduled promptly before every live fire exercise including combat deployments
- Served as the company's substance abuse program and supervised an aggressive urinalysis program; conducted training that educated personnel on drug and alcohol use and outreach programs
- Responsible for completing the unit semi-annual command chronology and ensuring that co-workers accurately input information
- Demonstrated time management and problem-solving skills that ensured supply levels were maintained for resupply services for military equipment operating in critical timeframes
- Managed the professional growth and counseling of personnel daily; resulting in quarterly and yearly evaluation reports, career development charts, and mentorship counseling

Operations Manager**United States Marine Corps****Apr 2008 - Apr 2011 (3 years 1 month)**

- Ensured accountability on all equipment by training and instructing subordinates to ensure and continue unit readiness
- Implemented training and planning for the company of over 120 Marines; ensured training plans that encompassed the Unit's guidance
- Demonstrated time management and problem-solving skills that ensured fuel supply levels were maintained for resupply services for military equipment operating in critical time frames

Education:

- Associate in Science (A.S.) in Full Stack Development
Los Angeles Mission College, Los Angeles, California, June 2023
